New InsurTech Software Suite Helps Clients Manage Independent Contractors Seamlessly
'Tracker Central Management Portal' Helps Mitigate Risk & Save Money

TORONTO (August 20, 2018) – Crawford Compliance Inc., a subsidiary of Crawford & Company (Canada) Inc. today announces the launch of a new contractor management solution. In line with Crawford's mission to restore and enhance lives business and communities, we continue to innovate and build solutions that mitigate risk and reduce losses. The latest addition to this portfolio of solutions is Tracker Central Management Portal, a tool that enables users to mitigate risk and reduce the number of incidents that occur when working with contractors, ensuring compliance with all relevant regulations such as health and safety, environmental, etc.

Any organization that hires contractors can attest to the challenges that can arise, from ensuring compliance with constantly changing regulations, to tracking and verifying worker certifications, to dealing with multiple software platforms and tracking schedules, weather, materials, etc.

The Tracker Central Management Portal is being used by a wide range of customers, from small operations to large enterprises, to ensure that they are always working with fully-certified contractors compliant with all regulations relevant to a specific job. This innovative suite of software products can be used by many industries, from healthcare to retail to manufacturing, and includes contractor management tools for a variety of contractor roles, from janitorial to groundskeepers to security guards. Clients can use the suite's "Snow Tracker®" software to fully manage the snow removal process, and "Tenant Tracker™" to track the expiries of tenant's insurance.

The easy-to-use InsurTech enterprise software simplifies and streamlines the contractor management process via one system as opposed to multiple software platforms. If an incident does occur, the system provides a date-and-time-stamped digital record of safety checks, the locations of workers, and more.

This record shows that clients are doing their due diligence to prevent incidents and can reduce negative financial outcomes.

In 2017, Crawford Compliance was recognized as the Canadian Insurance Innovator of the Year by Insurance Nexus. The award is given annually to a stand out player for their achievements in insurance analytics.

“Tracker Central Management Solution is disrupting the InsurTech industry by providing a system for contractor management that combines the risk management expertise of an insurance adjusting company with a state-of-the-art software platform,” said Eric Gordon, president of Crawford Compliance. “Our new software as a service suite is already proving to save clients time and money while mitigating risk and assisting in restoring business to their pre-loss state.”

About Crawford®

Based in Atlanta, Crawford & Company (NYSE: CRD-A and CRD-B) is the world’s largest publicly listed independent provider of claims management solutions to insurance companies and self-insured entities with an expansive global network serving clients in more than 70 countries. The Company’s two classes of stock are substantially identical, except with respect to voting rights and the Company’s ability to pay greater cash dividends on the non-voting Class A Common Stock (CRD-A) than on the voting Class B Common Stock (CRD-B), subject to certain limitations. In addition, with respect to mergers or similar transactions, holders of CRD-A must receive the same type and amount of consideration as holders of CRD-B, unless different consideration is approved by the holders of 75% of CRD-A, voting as a class. More information is available at www.crawfordandcompany.com.
